

We're excited to bring you a summer partnership between Alma College and Montcalm Community College!

Enclosed is a list of great summer course options that can be completed at Montcalm Community College along with the equivalent Alma College class.

Alma College Transfer Credit Policies:

- Alma College will only accept courses taken at a regionally accredited institution at the 100-level or above.
- Only transfer work graded with a "C" or higher grade will be accepted.
- Alma College requires all students to complete a minimum of 52 credits at Alma College to be granted a bachelor's degree.
- All transfer credit will be individually evaluated to satisfy distributive requirements for our general education requirement.
- To receive credit, an official transcript must be sent to registrar@alma.edu.

For more information on tuition, fees, and course registration, scan the QR code or visit montcalm.edu/alma-guest-students

ALMA COLLEGE

AHEA 100 Emergency Health Care 1-credit **HSS 180**

This course covers CPR and first aid for wounds, shock, burns, poisoning, and other emergency situations. Students successfully completing the course qualify for American Heart Association (AHA) Health Care Provider/Basic Life Support (BLS) CPR and AHA Heartsaver First Aid certifications.
(6/8/23 - 7/6/23, on campus)

AHEA 215 Medical Terminology 3-credit **HSS 180**

This course is a study of medical terminology, which is designed to assist the medical secretarial, nursing, allied health and science students in mastering medical terms. With an understanding of basic terms, the student is prepared to pursue additional education in the medical environment.
(6/6/23 - 8/1/23, online)

ARTS 190 Art Appreciation 3-credit **ART 180 - AH**

This course is designed to encourage visual literacy and develop analytical skills. It will explore the nature of art, the evaluation of art, the processes and materials of art. Students will examine the formal elements of design in relation to a wide variety of two- and three-dimensional artworks.
(6/6/23 - 8/1/23, online)

ARTS 265 Introduction to Film 3-credit **NMS 125**

The course is an introduction to the language, structure, history and narrative technique of film as a distinctive art form. Coursework includes the reading of film theory and criticism, as well as viewing, discussing and critically writing about short and feature length films by major international directors.
(6/6/23 - 8/1/23, online)

BIOL 100 Biological Science 4-credit **BIO 101 w/ lab – NS1, EXP3**

This course provides a general education of the biological sciences (chemistry of life, cell biology, genetics, evolution and natural selection, organismal biology, anatomy and physiology, and ecology) and a basis for individuals to relate to the world around them. Scientific methodology will be introduced. During the lab portion of the class, students will investigate and apply biological concepts and the scientific method. This course will prepare students for understanding scientific concepts within society and their lives as well as for future biology classes.
(6/6/23 - 8/1/23, online)

BIOL 105 Intro to Anatomy & Physiology **4-credit** **IPH 180 w/ lab**

The overall objective of BIOL105 is to introduce the principles and processes of biology through the study of the human organism. Students gain an understanding of how the human body functions through a detailed study of each organ system that comprises the human body. This course gives students a perspective of how the human body maintains homeostasis through the interaction of organ system functions. Current topics in health sciences, nutrition, biology and medicine are discussed as they pertain to specific organ systems. Laboratory exercises include dissection and physiological experiments pertinent to the topics covered. Students have an option to observe and use a human cadaver.
(6/6/23 - 8/1/23, online)

Montcalm Community College

ALMA COLLEGE

BIOL 202 Anatomy & Physiology I 4-credit **IPH 280 w/lab - UL**

BIOL 202 is an introduction to basic structural and functional aspects of the human body. The contribution of each body system to the total wellbeing of the individual is emphasized, as well as the interdependence of the body systems. Specific topics studied include anatomical terminology, chemical basis of life, cells, cellular metabolism, tissues, integumentary system, skeletal system, muscular system, nervous system, and special senses. Special emphasis is placed upon homeostatic mechanisms whenever feasible. Laboratory exercises include dissection and physiological experiments pertinent to the topics covered. Students have an option to observe a human cadaver.

(6/6/23 - 8/1/23, online)

BIOL 203 Anatomy & Physiology II 4-credit **IPH 280 w/lab - UL**

This continuation of BIOL202 covers the digestive system, the endocrine system, the respiratory system, blood, the cardiovascular system, the lymphatic system, the urinary system, water and electrolyte balance, the reproductive system and human genetics. Laboratory exercises are performed throughout the semester and related clinical applications and pathophysiology are discussed when appropriate. Homeostatic mechanisms pertinent to current lecture topics are emphasized and the course offers the opportunity to observe a human cadaver.

(6/6/23 - 8/1/23, online)

BUSN 135 Introduction to Business 3-credit **BUS 121**

This course provides an overview of American free enterprise and its functions and the role of business as an institution in society from historical and contemporary perspectives. Topics include business organization, management, marketing, finance, legal and regulatory environment and global opportunities.

(6/6/23 - 8/1/23, online)

CHEM 105 Survey of General Chemistry **4-credit**

CHM 103 w/ lab – NS2, EXP3

Fundamental principles and laws and theories of general inorganic chemistry will be covered. Included are the metric system, nomenclature, chemical bonding, the mole concept, gases, liquids, solids, solutions, atomic structure, acids/bases, chemical equilibrium and nuclear chemistry. Concurrent laboratory/workshop sessions include exercises illustrating the principles discussed in lecture.

(6/6/23 - 7/27/23, hybrid)

COMM 210 Speech 3-credit **COM 111 – AH**

This introductory course in public speaking provides practice in speaking with interest and purpose before an audience. By presenting a series of brief talks before peers, students become familiar with the basic principles of speech organization, preparation and delivery.

(6/6/23 - 8/1/23, online)

Montcalm Community College

ALMA COLLEGE

COMM 220 Interpersonal Communication 3-credit

COM 201 – AH, UL

This course increases the student's understanding of interpersonal communication in social and professional areas. Students learn theories and ethics of interpersonal communication, evaluate message strategies used in interpersonal communication contexts, select and apply communication strategies that strengthen social and professional relationships, and solve interpersonal communication problems in a systematic and thoughtful fashion.

(6/6/23 - 8/1/23, online)

CMIS 115 Intro to Computer Info Systems 3-credit

CSC 100

This course covers basic concepts, principles and functions of the computer system and applications software, history and evolution of the computer, the Internet and the Web and their current role in society. Standard applications including word processing, spreadsheets, databases and presentation software are covered.

(6/6/23 - 8/1/23, on campus)

ECON 215 Principles of Macroeconomics 3-credit

ECN 111 – SO, EXP2

This course provides an introduction to the basic tools and concepts of macroeconomic analysis. The course materials focus on the measurement of the national economy, gross domestic product, inflation and unemployment, and the principles for controlling the economy through fiscal, and monetary policy.

(6/6/23 - 8/1/23, online)

ENGL 100 Freshman English I 3-credit ENG 100

In this introductory college writing course, students develop and refine academic writing, reading, and information literacy skills and processes that will serve them across disciplines.

(6/6/23 - 8/1/23, on campus or online)

ENGL 101 Freshman English II 3-credit ENG 101 - English Comp

This extension of ENGL 100 emphasizes incorporating research into written work, elaborating upon analytical skills, employing skills of persuasion and argumentation, and developing the ability to discuss concepts encountered in reading and research of social and cultural perspectives.

(6/6/23 - 8/1/23, on campus or online)

ENGL 195 Introduction to Literature 3-credit ENG 110 – AH

This course introduces students to text-based, reader-based and context-based interpretive strategies for the study of poetry, fiction, and drama. Through lecture, discussion, writing, and project work, students learn the characteristics the various genres of literature and the foundations of analysis.

(6/6/23 - 8/1/23, on campus)

MATH 102 Quantitative Reasoning 4-credit MTH 110 – NS3, Math Comp

Topics covered will include voting methods, graphical displays, probability distribution, weighted average & expected value, absolute vs relative change, mathematical modeling (linear, exponential, logistic), regression analysis, correlation vs causation, exponential growth & limitations, and introductory statistics.

(6/6/23 - 8/1/23, on campus or online)

Montcalm Community College

ALMA COLLEGE

MATH 104 Intermediate Algebra 4-cr **MTH 108**

This course explores algebraic concepts including linear, quadratic, exponential and logarithmic functions using numerical, graphical, and symbolic representations; sequences; and systems of equations. Students experience these concepts using a problem solving approach with appropriate technology.
(6/6/23 - 8/1/23, on campus)

MATH 190 Introductory Statistics 4-cr **MTH 116 – NS3, Math Comp**

This course introduces basic statistical concepts including mean, standard deviation, frequency, probability, binomial distribution, normal curve, sample means, confidence limits, hypothesis testing, and linear regression. Statistical analysis will be done using computer software.
(6/6/23 - 8/1/23, on campus)

MGMT 237 Concepts of Management 3-cr **BUS 323 - UL**

This course covers, in detail, the managerial process, including planning, organizing, leading and controlling. Other topics studied include the purposes of organizations and how they function, the business environment, human behavior, operations management and total quality management.
(6/6/23 - 8/1/23, online)

MGMT 250 Organizational Behavior 3-cr **BUS 324 - UL**

This course provides a background in human relations and behavior of individuals within an organizational environment, with emphasis on social and group influences.
(6/6/23 - 8/1/23, online)

MRKT 233 Principles of Marketing 3-cr **BUS 180**

This introduction to marketing (the movement of goods and services from producer to consumer) emphasizes the behavior of buyers in the marketplace and the major functions of marketing and their impact on the national and international economy.
(6/6/23 - 8/1/23, online)

PHIL 221 Philosophy of World Religions 3-cr **REL 100 – AH, EXP2**

This course is a survey of world religions and related philosophies. The exploration of thought, belief and religious practices from diverse cultures provides an opportunity to appreciate the uniqueness of other traditions while drawing upon the universal experience of the inner person. In addition, this study includes an inquiry of global pursuits in understanding the purpose of life, the quest for truth, the search for reality and the experience of spirituality.
(6/6/23 - 8/1/23, online)

PHIL 220 Introduction to Philosophy 3-cr **PHL 180 – AH , EXP2** 🌐 🖋️

This chronological survey of Western philosophy examines the ways in which thinkers have dealt with fundamental questions over the past 2,500 years. Examples of Eastern thought serve as points of reference and contrast to contemporary European and American positions.
(6/6/23 - 8/1/23, online)

ALMA COLLEGE

PHIL 222 Bioethics 3-credit

PHL 229 – AH, Themes, UL

This course covers some of the major ethical theories, principles and approaches that affect life in the 21st Century, with a focus on decision making processes in the biological or health care related fields.

(6/6/23 - 8/1/23, online or hybrid)

POLI 240 American Political System 3-credit

POL 101 – SO, EXP2

This course intends to introduce you to your government and help you become better acquainted with its workings. Historical and philosophical underpinnings are examined throughout the course. This is an overview of the structures, processes, and interactions involved in decision making at the national level in this republic.

(6/6/23 - 8/1/23, on campus or online)

PSYC 120 General Psychology 3-credit

PSY 120 – NS1, EXP2

This course familiarizes beginning students with the basic concepts and methods used by psychologists to study human behavior. Subjects covered include research design, the biological basis of behavior, consciousness, developmental psychology, sensation, perception, learning, memory, thinking, intelligence, motivation, emotion, social psychology, personality and mental disorders.

(6/6/23 - 8/1/23, on campus or online)

PSYC 221 Child Psychology 3-credit

PSY 280 – NS1, UL

This course examines the field of child development and child psychology. Topics covered include research methodology, genetics, prenatal development, birth/neonatal development, growth, cognitive development, language development, intelligence, social/emotional development, gender, moral development, and the impact of peers, parents, and society upon development.

(6/6/23 - 8/1/23, online)

SOCI 235 Social Problems 3-credit

SOC 141 – SO, EXP2

This course focuses on the sociological approach to social problems including issues related to social inequality, social deviance, social institutions, global problems, and current events.

(6/6/23 - 8/1/23, online)

SPAN 130 Elementary Spanish I 3-credit

SPN 111

This course is the first half of a two-semester beginning Spanish course designed primarily around conversational approaches to the language with instruction in the basics of Spanish grammar. Lectures and written exercises supplement an emphasis on oral recitation and classroom conversation along with an examination of pertinent aspects of Hispanic culture.

(6/12/23 - 7/31/23, hybrid)

Montcalm Community College
