

Description: Behavioral Health is a job training program that will give students the training they need to take and pass the RBT Certification exam. BHVR110 will give students hands-on practicum experience in the field to hone their skills, gain real world experience, and make connections with possible employers. Registered Behavioral Technicians assist in one-on-one situations with students with disabilities (usually but not exclusively with autism) within the school setting.

Completion Time: 1 Year

Half-time
