

Full-time with summer course schedule

Description: The Digital Arts Associate of Applied Science degree prepares students to work as a commercial artist while working towards creating their own multi-media up-start. Students will gain real-world experiences that will allow them to be competitive in today's growing global media marketplace. Students will learn how to create and manipulate digital media with today's leading photography and design software. Upon successful completion of this program, students will have a basic understanding of business planning and will have created a professional portfolio.

Completion Time: 2 Years

This is suggested course sequencing. Please see a counselor or advisor for individual adjustments.
